

TSG Dawn

Ison www.ison-distribution.co.uk

SO GOOD... The Dawn is unlike the other lids here, in that it has built-in ear protectors to follow the current trend. Because of its inner shaping, it sits deep onto your bonce and really hugs it – almost giving a feeling of full-face confidence. The inner pads are quality and more are included to finesse the fit should you need them. The rear sits really low, improving coverage.

NO GOOD... The added coverage comes at a heat disadvantage, with the Dawn getting pretty warm on summer days, and we'd like to have seen the exposed sections of the EPS liner on the brow covered.
