

M-WAVE

M-WAVE Stalwart Single 40 trailer spare hitch parts

Spare 'twin-ball socket knuckle' hitches for use with the Single wheel Stalwart luggage bicycle trailer.

Trailer ref. TRMWSS1B (M-Wave 640081 with bag) or TRMWSS1B (M-Wave 640047 without bag)

- ✓ Useful for a second bike.
- ✓ Available to fit different types of bicycle rear axles.

a) Quick Release Skewer type for hollow QR axles.

(same item as supplied standard with the trailer)

TRMWZ1AQR (M-Wave 640084)

b) Nutted type for Solid M10 x 1 axles

(common size on many modern rear hubs)

TRMWZ110 (M-Wave 640077)

c) Nutted type for Solid 3/8 x 26Tpi axles

(fits Shimano Alphone & Nexus type hubs)

TRMWZ1A38 (M-Wave 640078)

d) Spigot type for Thru-type 12mm rear axles*.

TRMWZ1A12 (M-Wave 640002)

*Note: these thread-in spigot fit knuckles must be used in conjunction with the appropriate **M-Wave 12mm convertor Thru axles**.

The convertor alloy axles are internally threaded to accept the thread-in spigots with knuckles. There are 3 types of convertor axles, depending on the dropout thread used on your bicycle.

Caution: Be careful to select the correct thread pitch for your frame, as damage will be caused to the frame if using the incorrect thread pitch.

If in doubt, contact your frame supplier.

TRMWZTAS (M-Wave 640140) – Shimano type M12 x 1.5

TRMWZTAT (M-Wave 640141) – Syntace type M12 x 1.0

TRMWZTAM (M-Wave 640142) – Maxle type M12 x 1.75

M-WAVE Stalwart Single 40 safety lock QR hitch spare hook-on parts.

Replacement QR hooked fittings for the trailer arms.

These clip onto the twin knuckles, fitted onto the bike's rear axle.

TRMWZ1AH (M-wave 640127)
